

Recommendation Letter

To whom it may concern,

Abirami Baskaran was attached to our company and worked with us during her ten-week ITE internship from July to August 2021.

Abby, as we call her, showed an immense amount of enthusiasm. She was honestly interested in learning more about the IT Infrastructure support services our company IT Block provides to our clients. She enjoyed that no two jobs were the same, going to different sites and meeting many other people.

She showed outstanding resourcefulness and an innate ability to ask the right questions. One of our clients asked where we got our interns from after experiencing Abby's work, which shows the professionalism and diligence that exudes from her.

Our time with her was too short, and we think she would benefit the team of any organization.

Sincerely,

Reza Nilofer

VP, Sales & Technology
